All returns require a copy of the original invoice and explanation for the return. Products and packaging must be returned in new, resaleable condition. Items need to be overboxed (original box or packaging is inside another box). Some products can't be returned, please see the list below. We reserve the right to refuse any items returned without prior authorization. Once we receive your package, you will be issued a refund to the original method of payment. Return shipping cost is at the expense of the customer unless other arrangements have been made. Do not return any parts COD, they will not be accepted. A $5 re-boxing fee will be deducted from your refund if repackaging of the item is required. Also a 10% restocking fee will be charged on items that need to be repackaged and/or are returned without a copy of the invoice or explanation of the return. Installation costs will not be covered for any returned or defective product.

Installed or used products are not eligible for return unless found defective. Any non-defective product that has been installed will be shipped back to the customer at their expense. If any component of the returned product is missing, we reserve the right to reject the return. We reserve the right to refuse any items that have been returned under false pretense and the items will be returned to the customer at their expense. Products sent back with damaged or missing packaging will be refused. There are certain items that cannot be returned, please see non-returnable products below.

If you received an item that is incorrect or defective, contact us for a replacement. Please check all merchandise for damage or defect when you receive your order, and before the item is used or installed. We will cover shipping on defective and incorrectly shipped items. Our definition of a defective part, is a part that is installed and does not work immediately upon proper installation. In this case, a replacement product will be sent to you, and a return tag will be sent for you to return the incorrect or defective product back to us. If the original item is not returned within 30 days, the customer will be responsible for the cost of the replacement item that was sent.
